Sitting with the Silence After the Noise is an intimate, invitation-only art experience designed for reflection, storytelling, and thoughtful conversation. Guests are guided through moments of silence and dialogue with a small selection of artworks, engaging directly with artists, curators, and collectors to explore meaning, intention, and value beyond aesthetics. The evening prioritizes depth, presence, and connection with curated tea, wine and music gently accompanying the experience, creating space for meaningful exchange and discovery. Attendance is intentionally limited to preserve intimacy.
